University City Science Center

Vice President of Ecosystem Development

Philadelphia, PA

The University City Science Center seeks nominations and applications for the newly created position of Vice President of Ecosystem Development. Reporting to the President and CEO, the VP Ecosystem Development will be the face of Quorum, with responsibility for positioning Quorum and uCity Square at the epicenter of the region's entrepreneurial/innovation ecosystem. The VP Ecosystem Development will be a proven and well-known leader in the local innovation and entrepreneurship community with high recognition and visibility. The VP Ecosystem Development will have overall responsibility for the Science Center's community engagement strategy and will be charged with growing and extending the successful existing Quorum programming operations with fiscal performance, and ensuring the successful launch of and implementation of Venture Café @Quorum programming. The VP Ecosystem Development will also have responsibility for programs and partnerships that focus on community engagement (similar to the recently closed Microsoft Reactor); Innovation Plaza; and possibly (depending on skill, fit and interest) STEM/STEAM Education and Workforce Development programs.

Bachelor's degree required, advanced degree preferred. The successful candidate will have a demonstrated track record in leading innovation and/or entrepreneurship initiatives, preferably in the role of Founder or CEO. S/he must have a clear and broad understanding of the interdisciplinary nature of the innovation process, including its business and social components, as well as a commitment to access, diversity and inclusion. Experience managing staff, volunteers, budgets, program planning and resource development required. Ability to communicate and collaborate across business, academia, government, and civil society required.

The University City Science Center is an Equal Opportunity/Affirmative Action employer.
